

Auditing for Environmental Compliance™

The *Auditing for Environmental Compliance™* course will prepare you to develop, manage, or perform first-, second-, or third-party internal environmental compliance audits. The focus is on audit procedures, recommended and common approaches, and techniques, rather than on EH&S regulatory requirements.

Learning Objectives

- Audit program components
- Audit team roles
- Documenting and categorizing findings
- Corrective action development and prioritization
- Root cause analysis

Intended Audience

- Audit program and quality control managers
- Environmental compliance auditors
- EH&S compliance managers

Format (*full agenda on website*)

- Collaborative and comfortable atmosphere, with questions and discussion encouraged
- Regular breaks to allow students to stay in touch with office or attend to personal matters
- Coffee, drinks, and snacks throughout the day

Students Receive

- EH&S background primer sent in advance of course
- Hard copy of all slides and instructional/supporting information in convenient reference binder
- Access to instructors for follow-on questions
